Greenline BioBoard Gen2 ist die Lösung für alle, die sich eine nachhaltige und klimafreundliche Küche wünschen. Für die Herstellung des Greenline BioBoard Gen2 werden bis zu 90 Prozent Recyclingholz verwendet. Das unterstützt die Kohlenstoffbindung und entlastet als natürlicher CO2-Speicher die Atmosphäre. Entdecken Sie hier unsere Fronten-Dekore, die in der nachhaltigen Variante erhältlich sind, auf einen Blick. Und wenn Sie noch mehr über Nachhaltigkeit bei Rotpunkt Küchen erfahren möchten, sind Sie hier richtig.

Greenline BioBoard Gen2 is the solution for everyone who wants a sustainable and climate-friendly kitchen. Up to 90 percent recycled wood is used to produce the Greenline BioBoard Gen2. This supports carbon sequestration and relieves the atmosphere as a natural CO2 store. Discover our front decors, which are available in the sustainable version, at a glance here. And if you would like to find out more about sustainability at Rotpunkt Küchen, you have come to the right place.

Greenline BioBoard Gen2 est la solution pour tous ceux qui souhaitent une cuisine durable et respectueuse du climat. Jusqu'à 90 % de bois recyclé est utilisé pour la fabrication du greenline BioBoard Gen2. Cela favorise le piégeage du carbone et, en tant que stockeur naturel de CO2, il soulage l'atmosphère. Découvrez ici en un coup d'œil nos décors de façades disponibles en version durable. Et si vous souhaitez en savoir encore plus sur la durabilité chez Rotpunkt Küchen, vous êtes au bon endroit.

Greenline BioBoard Gen2 is de oplossing voor iedereen die een duurzame en klimaatvriendelijke keuken wil. Voor de fabricage van greenline BioBoard Gen2 wordt gebruik gemaakt van tot 90 procent gerecycled hout. Dit ondersteunt de koolstofbinding en ontlast als natuurlijke CO2-opslag de atmosfeer. Ontdek hier in één oogopslag onze frontdecors, die verkrijgbaar zijn in de duurzame versie. En als u nog meer wilt weten over duurzaamheid bij Rotpunkt Küchen, dan ben u hier aan het juiste adres.
